

**WESTERN OPENING . . .** Dell Dodson, manager of the Firestone Store, 1451 Marcelina avenue, swings open new double doors which have recently been erected on the west side of the store on Cravens avenue. New entrance provides greater access to foot traffic along Cravens and still provides ample parking for convenience of "drive-in" customers.

### Defense Corps Unit Being Activated Here Tonight

Company B, Fourth Battalion, Fourth Group, California Defense and Security Corps will be mustered in at the Torrance Ball Park at 8 o'clock this evening.

1st Lieutenant Mike Barrett, executive officer of the new unit, said the company will replace the mobilized National Guard unit in the state defense setup.

Especially sought for muster are veterans of military service. Any man 17 to 60 can join, Lt. Barrett said. Men from 19 to 27, however, must not be subject to the draft.

Volunteers will be expected to train two hours each week, Barrett said.

The Defense Corps is being activated to take over the job of maintaining internal security now that the National Guard has again become a part of the regular army on federal service. Information concerning duty with the unit can be obtained at the Torrance Ball Park tonight or by calling Lt. Barrett at Torrance 397-M.

**CONSTRUCTION STARTED . . .** While the congregation looked on, Rev. Arthur Bello, of the St. Andrew's Episcopal Church, turned the first shovel of dirt for the new educational unit of the church here recently. The Right Rev. Donald J. Campbell (second from left) suffragan bishop of Los Angeles, officiated at the groundbreaking. The new unit will be built principally by members of the parish, and when completed will contain seven classrooms and an office for the rector. (B. T. Whitney photo).

Several new courses designed to give help to those in industrial employment and students contemplating a position in industry will be offered at El Camino in the spring semester, it was announced this week by Robert F. Stone, assistant director of instruction at the college.

The latest course to be placed on the curriculum is one in oil refining. The course will help oil workers win promotions, Stone said.

A course in gas welding will be given in response to a request by Standard Oil of California. Courses in personnel management and supervision will also be given.

Other classes will include shop mathematics, industrial drafting, radio and television. An electrical drafting course will be given at the request of aircraft industries in the area.

Registration for these courses will be held at the beginning of the spring semester on January 29, 30 and 31, Stone said.
